Objet : Notification of abandonment to Patricia Booker

Dear Patricia Booker,

I have just received your mail dated 02/11/2002, concerning the notification of abandonment, on Monday 03/11/2002. I called you several times to speak with you without having you. So I let several messages, but I didn't have any answer from your part.

I would like to have some precisions about mi mistakes concerning the U.S Basic National Fee, because I don't know exactly what it is about. I am a small independent inventor, and it is very important for me to obtain this American Patent. I ask you to be lenient to me, because it is the first time I do this request for an American Patent, and because I am French it is more difficult for me.

Concerning my credit card, I inform you that I did a mistake, I am sorry. The real credit card expiration date is January 2003.

I thank you for your understanding, and I hope I will have good news soon.

I am waiting for your answer.

Best regards.

Roberto LORIER
